Willis Carrier invented air conditioning in 1902. Over 100 years later, we’re proud to say Carrier® systems are trusted in more homes than any other brand. Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you’ll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you’re going to feel more comfortable.

Efficiency
When your system runs at its peak performance day in and day out, you’re wise to save on utility costs. The Infinity™ Control monitors every part of your system and reminds when it’s time for routine servicing.

- Regular filter changes help to keep your air flowing without taxing your system work harder. The TrueSense™ dirty filter detection reminds you when it’s time to change your media filter, keeping your system running at its highest efficiency level.
- Hot in one room, cool in the next? The optional zoning system lets you set individual temperatures and fan speeds for up to eight areas within your home.
- The programmable Infinity Control can help save you up to 30% on your heating and cooling costs over a conventional non-programmable thermostat.

Peace of Mind
When your home comfort system operates at its highest efficiency level, it saves you on your utility costs, but how do you know for sure? The Infinity™ Control monitors your compatible systems and provides regular service check-up reminders to help keep your system at the peak of its performance.

- TrueSense™ dirty filter detection reminds you when it’s time to change your media filter. And when you add accessories such as a humidifier, germicidal UV lamp or ventilator, the Infinity™ Control reminds you for their routine maintenance, too.
- Day-at-a-glance programming lets you tailor your home comfort specifically to your family’s needs while maximizing your energy savings.
- Accessory status screen allows you to check usage and performance of indoor air quality accessories.

Turn to the Experts
Why take chances when it comes to your comfort? Your Carrier dealer will help you select the right comfort system for your home’s unique needs.

Things to Consider Before You Buy

Comfort Control
Carrier® spacekiles in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. And, the Infinity™ Control is the ultimate control center for all of your system components. Your Carrier dealer can help you choose the best system for your home including Carrier-exclusive features that further enhance your indoor environment.

- When you add an Infinity™ Control to a compatible variable speed furnace or Infinity™ fan coil, and any central air conditioning or heat pump system, you enjoy longer heating and cooling cycles at lower fan speeds for a more comfortable temperature throughout your home.
- Infinity™ Control acts as a command center for your indoor comfort. Precisely set fan speeds, air filtration and temperatures with one convenient, easy-to-use control, maximizing air circulation while minimizing potential drafts or hot spots.
- Infinity™ Control is sophisticated enough to access, monitor and set replacement filters for accessories such as humidifiers and ventilators.

Other optional systems can also be controlled through the Infinity™ Control.
- With IdealHumidity™ monitor and adjust your home's humidity level even when your home comfort system isn't actively heating or cooling. Keeping the proper balance of moisture in your home allows you to remain more comfortable at higher temperatures in the summer and lower temperatures in the winter. And, more efficiency means lower utility costs.

Ease of Use
When you have a variety of features, it just makes sense for them to be user-friendly, too – otherwise, why have them? The revolutionary Infinity™ Control is the smart control of the future. With the largest backlit liquid crystal display in the industry, the Infinity Control is easier to read, even at night. Intuitive prompts let you program everything from humidity, air quality, fan speed control offering additional flexibility and increased comfort throughout your home.

- One control gives you complete system access to your home comfort system including your furnace, fan coil or air conditioner and optional accessories such as humidifiers, ultraviolet lights and filtration products.

- Intuitive, on-screen prompts walk you through your programming options even letting you set your changes or allowing you to return to previous settings.

- Coordinate your heating and cooling needs with your daily schedule using the day-at-a-glance programming features. Going out of town? Change your home comfort system settings to your preferred vacation set points.

- View your furnace, air conditioner and indoor air quality performance at the touch of a button. 24 hours a day, seven days a week.
- Pop-up reminders let you know when it’s time to change filters or alert you to regular servicing check-ups.

- Adding the exclusive zoning system allows you to customize your comfort settings in up to eight different areas of your home, helping to eliminate temperature differences.

- When you add an Infinity™ Control to a compatible variable speed furnace or Infinity™ fan coil, and any central air conditioning or heat pump system, you enjoy longer heating and cooling cycles at lower fan speeds for a more comfortable temperature throughout your home.

- Intuitive prompts let you program everything from humidity, air quality, fan speed control offering additional flexibility and increased comfort throughout your home.

- Large, easy-to-push buttons increase system functionality.

- Day-at-a-glance seven-day programming lets you customize your home’s comfort, specifically for day-to-day life while maximizing your energy savings.

- Simple, easy-to-understand on-screen prompts walk you through your options.

- Optional Zoning System allows you to control specific temperature settings in up to eight different areas of your home.

- Optional Smart Sensors can be installed in each zone.

Reliability
As a Carrier® dealer is our business. That’s why we have one of the most extensive product research and development facilities in the world. Within every step of the development process, from the design phase to the finished product, we test each and every product to exceed industry standard requirements.

Carrier® Systems for Unmatched Performance

- Veri-Care combines field-tested controls or tiny room by room for improved quality and increased efficiency – great for today’s tightly constructed homes.

- Zoning lets you choose temperatures for up to eight different areas of your home, further enhancing your indoor environment.

- Optional Zoning System allows you to control specific temperature settings in up to eight different areas of your home.

- Optional Smart Sensors can be installed in each zone.

- Large, easy-to-push buttons increase system functionality.

- Day-at-a-glance seven-day programming lets you customize your home’s comfort, specifically for day-to-day life while maximizing your energy savings.

- Simple, easy-to-understand on-screen prompts walk you through your options.

- Optional Zoning System allows you to control specific temperature settings in up to eight different areas of your home.

- Optional Smart Sensors can be installed in each zone.

Warranty
The Infinity™ Control is protected by a five-year (minimum) warranty. Extended warranties are also available. Contact your Carrier® dealer for further details.
